

ATLAS

ATLAS 简介

单面超细针距针织大圆机（可达90针），每英寸3路喂纱，无需沉降片。

“减少沉降片”的技术使得成圈时线圈不会因机械运动产生扭曲，并完全可以避免任何沉降片稀薄条的风险。

机器安装了特殊的握持片（圣东尼专利），允许满路编织，落布后容易快速重启，节省能源。

包括圆筒机或开幅机

ATLAS BRIEF

Single jersey ultra fine gauge (up to E90) circular knitting machine without sinker with 3 feeds per diametrical inch.

“Sinker less” technology allows a stitch formation not disturbed by any mechanical to produce a fabric completely sinker line free.

Equipped with holding down jacks (Santoni patent) to work in every condition at full feeds and make the knitting re-start fast and easy after a fabric press-off.

Reduces friction between knitting elements delivers significative saving of energy.

Available with tubular or open width frame.
